

**UPGRADE**  
**QD™**  
QUICK DISCONNECT  
AVAILABLE

PRYME's QuickDisconnect audio accessories and adapters provide both security and usability. Just install the adapter onto the radio and then plug the QD accessory into the six-pin QD connector. The push-pull mechanism locks the accessory in place during use, but still allows you to quickly remove it from the radio without tools if necessary.

Our new QD connectors are now die-cast and precision machined for superb fit and incredible durability rivaling the OEM models.

### Pick an Adapter and Accessory to make a set.

The PRYME Quick Disconnect (QD™) is available for a wide range of radios, offering additional convenience and simplicity. The PRYME QD™ will allow the user to easily connect and disconnect a PRYME audio accessory, yet is secure enough to be used in most situations. All PRYME Quick Disconnect accessories are interchangeable with all PRYME Quick Disconnect Adapters and Pigtails, making communications convenient for large businesses that use multiple brand radios. The PRYME Quick Disconnect pigtails and adapters also prevent wear and tear, prolonging the life of your radios.
